Wood Pope, M.D.

Membership Chair

Eric Stiefel, M.D.

Resident Program Representative

Thomas L. Bradbury, M.D.

Member at Large

Douglas B. Kasow, D.O.

Executive Director

Liz Neary

Executive Director Assistant

Sarah Moran

Absence Makes the Heart Grow Fonder...

Snehal C. Dalal, M.D.

Oh, how we all yearn for the day that we can see all those familiar faces, create fond memories, and perhaps shake a hand or two. How satisfying is it to be able to speak at the podium in front of

eager faces, feeling the energy and inquisitiveness of the audience? We are social creatures, and we yearn for the interaction that cannot be matched through a screen. I am sure there are parents out there that are relieved and encouraged by their children attending school in person and once again interacting with friends. I am certain that many of you have already blocked your schedules and made reservations to attend our 75th Anniversary Annual GOS meeting to be held October 7-9th at Sea Island. If you haven't, what are you waiting for?

We are approaching record attendance this year at the Cloister. We received many excellent abstracts and our Program Chair, Brad Bushnell, has put together a comprehensive program that will suit all interests and subspecialties. The agenda boasts Pediatric, Spine, and Foot/Ankle Symposia with topics for the general orthopedist. Among other interesting presentations, we have a GOS member who is part of the police force and will tell us how

to manage an active shooter! The GSSH annual meeting will also be conducted Thursday morning with Macon's, Waldo Floyd III as our Hand Guest Speaker. Our GOS Presidential Guest Speaker, Jim Ninomiya, is a friend and mentor. He will discuss his humanitarian work as well as how to optimize outcomes in joint arthroplasty. Our very own Danny Guy is the current AAOS president – what a crowning jewel for Georgia! He will be addressing us, giving us an AAOS update.

This year has not been without challenges, but our Society has continued to perform excellent work. Wendell Duncan has put together a wonderful compendium of the History of GOS and will present this to our membership at the Annual Meeting. Our Legislative Chair, Christopher Walsh along with Don Bolia, our lobbyist, worked hard during this unusual legislative session to draft bills that dealt with limiting phantom damages, tort reform, surprise billing, and transparency in prior authorizations. We have continued to maintain a strong relationship with the Medical Association of Georgia as they now have a new Executive Director. I encourage all our GOS membership to continue to support and maintain their membership with MAG. Our current percentage of GOS members in MAG allows us 2 delegates at their House of Delegates Annual Meeting. THIS IS WHERE GEORGIA HEALTHCARE POLICY STARTS. It is important to keep up our delegation to make sure the needs of our orthopedists are heard and met.

Continued on Page 2

Continued from Page 1

The more delegates we have, the stronger our voice. Lastly, we had finished as runner up in the Society of the Year competition a few years ago. We are now vying for that title again. Our Member-At-Large, Doug Kasow, took the baton running and put together a stellar application and we hope to broadcast good news soon.

The AAOS has resumed the National Orthopedic Leadership Conference (NOLC) in Washington, DC. During that time our Presidential line along with our 3 BOC delegates will continue to advocate our interests at the national level on Capitol Hill, either in person or virtually during that time.

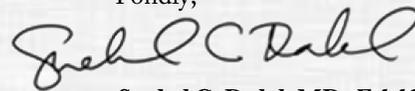

Last year we created the GOS Foundation. We are proud to say that the Foundation has now received its 501(c)(3) designation. We are excited to now work on establishing a project to present to our membership. We now have a vehicle to carry out projects that will further our profession and create a legacy for many of our GOS members. The Foundation's first Board meeting was held earlier this month. If you are interested in participating in the Foundation, please contact a GOS Board Member.

Just as we entered darkness in March 2020, we are now seeing the light of hope as vaccinations have become available to not only adults but our children. The risk of serious illness and death that plagued our country in the beginning of this year seemed to diminish, so we thought. COVID-19 had different plans and hit us with the Delta variant. Cases are rising but it seems to affect mostly the unvaccinated. We are all experiencing the strain of staffing shortages in our offices, surgery centers, and hospitals. This is only compounded by the vast consumption of hospital resources by seriously ill COVID cases. We are now seeing hospital operating rooms closing their doors to elective cases a month at a time. But there is a hope. The Pfizer COVID-19 vaccine received full approval by the FDA. The Moderna and Johnson & Johnson vaccines have similar effectiveness and safety data and may receive approval shortly as well. Hopefully this FDA approval will result in boosting the public's confidence in the vaccine. We are one step closer to changing the direction of this pandemic.

We are committed to the safety of our GOS family and feel that we can conduct a safe, fun, stress free and educational meeting this October. We have been in close contact with the Cloister, and they are following all safety measures. In this meeting, expect all of us to follow the CDC guidelines. Mask wear will be mandatory. Being fully vaccinated by October is strongly encouraged. If you are not feeling well or are not vaccinated, please consider your plans accordingly. We want you and your families to remain safe and healthy through these challenging times. We will love to see your healthy smile the following year!

I, along with the GOS Board, am very thankful for your membership. I am thankful to serve as your President this year and I hope I came to task. Our Society continues to glow and flourish. We are excited to resume our tradition of seeing all our friends across the state at the beautiful Cloister, on Sea Island. Please look over the program and make sure you book your room as soon as possible. Send in your registration and we'll see you in October!

Fondly,

Snehal C. Dalal, MD, FAAOS

President, Georgia Orthopaedic Society

GOS Members enjoy time together at the 2021 AAOS Annual Meeting in San Diego. Pictured left to right.

GOS President - Snehal C. Dalal, MD, AAOS President - Danny Guy, MD, and GOS AAOS BOC - Jim Barber, MD

REPORT FROM

THE GOS AAOS BOARD OF COUNCILORS

GOS History.... Did You Know?

With only weeks left before our annual meeting, Jim, Lee, and I don't have a formal AAOS BOC report, but we'll give you a prelude to the history we'll share at the 75th annual meeting. Who was the FIRST Board of Councilors Representative from GOS? It was Dr. Jack Hughston in 1972, who had served as GOS President in 1968.

His position also added a 5th member to the Executive Committee of GOS which is now known as the Board of Directors. Please register for the meeting if you haven't already done so and we look forward to seeing you there.

Remember, any issues, questions, or concerns that you may want to bring before AAOS, please let us know and we will be able to expedite that for you.

THE GEORGIA ORTHOPAEDIC SOCIETY WOULD LIKE TO THANK THE FOLLOWING COMPANIES FOR THEIR SUPPORT OF THE 2021 ANNUAL MEETING

DIAMOND LEVEL

MagMutual

Transformative insurance solutions for the practice, business and regulation of medicine

PLATINUM LEVEL

Arthrex

Karen Carter
kcarter@unitedorthollc.com

United Orthopedics, Veritas Surgical Solutions and Team 1 are the Arthrex Distributor's for the state of Georgia. As independent regional distributors authorized to sell Arthrex products we work with surgeons and healthcare professionals to help treat their patients better. Arthrex is a world-class leader in the orthopedic industry.

DePuy Synthes

DePuy Synthes Companies DePuy Synthes Companies, part of the Johnson & Johnson Medical Devices Companies, provides one of the most comprehensive orthopaedics portfolios in the world. DePuy Synthes Companies solutions, in specialties including joint reconstruction, trauma, craniomaxillofacial, spinal surgery and sports medicine, are designed to advance patient care while delivering clinical and economic value to health care systems worldwide. For more information, visit www.depuyssynthes.com.

GOLD LEVEL

Medtronic

At Medtronic, we believe in the power of medical technology to improve lives. Seven decades ago, our co-founder invented the battery-powered pacemaker. Today, we are among the largest medical device companies in the world. With operations in 150 countries, our products treat 70 health conditions and include cardiac devices, cranial and spine robotics, insulin pumps, surgical tools, patient monitoring systems, and more. Our therapies help 72 million people a year and support our Mission to alleviate pain, restore health, and extend life.

ZIMMER BIOMET

Founded in 1927 and headquartered in Warsaw, Indiana, Zimmer Biomet is a global leader in musculoskeletal healthcare. We design, manufacture and market orthopaedic reconstructive products; sports medicine, biologics, extremities and trauma products.

SILVER LEVEL

Acumed | OsteoMed

Acumed | OsteoMed serves highly skilled specialized surgeons who demand comprehensive, high-quality medical devices for patients with simple to complex injuries for optimal restoration of function. Acumed | OsteoMed serves highly skilled, specialized surgeons. Acumed offers the most complete selection of upper extremity fixation and specialty plates on the US market and OsteoMed is a leading global innovator of specialty medical devices, surgical implants, and powered surgical instruments.

American Health Imaging

Matt McLees
mmclees@ahicenters.com

American Health Imaging high-quality diagnostic imaging services help referring physicians deliver the best possible treatment and patient care. Our radiologists pride themselves on providing responsive service to our referring community. Radiology reports are available in 24 hours and are accessible to referring physicians through our PACs services.

Our professional and caring staff is sensitive to patients who may be worried or anxious about their health and the unfamiliar diagnostic imaging procedure. Patient comfort and convenience is paramount to us as well as a sensitivity to the individual needs of each patient.

American Health Imaging offers patients convenient locations with free parking, accommodating scheduling, and we accept most insurance plans.

2021 SPONSORS, continued

<u>Automated HealthCare Solutions</u>	Automated HealthCare Solutions (AHCS) is the leading provider of technology-enabled dispensing solutions for physicians serving workers' compensation and auto injury patients at the point of care. AHCS' powerful, next generation software ezDispense, helps physicians manage in-office medication dispensing while simultaneously removing many of the traditional barriers associated with physician dispensing.	
<u>Biocomposites</u> marketing@biocomposites.com	At Biocomposites, we are distinct in that our team of specialists is singularly focused on the development of innovative calcium compounds for surgical use. Our innovative products are at the forefront of calcium technology and range from bone grafts to matrices that can be used in the presence of infection. We are proud to be driving improved outcomes across a wide range of clinical applications, in musculoskeletal infection, trauma, spine and sports injuries, for surgeons and patients alike.	
<u>Catalyst Orthoscience</u>	A departure from the status quo, the Catalyst CSR system is uniquely engineered to help patients of all ages. The unique TSA system offers precision and reproducibility in accurate joint line restoration while preserving the patient's bone and soft tissue. With ellipsoid humeral geometry and consistent head height restoration, the Catalyst CSR system has been shown to more precisely restore proximal humeral anatomy and the anatomic center of rotation (COR) within clinically significant parameters compared to a leading "anatomic" stemmed system.	
<u>CNC Concepts, LLC</u>	Private healthcare entity. Specializing in sales/distribution, investor relations and consulting.	
<u>Corin Group</u>	Since inception, Corin has led the way in orthopaedic innovation — providing a faster, positive and more assured return to quality of life for people all over the world. Today, as a dynamic, growing, global business, Corin's approach is revolutionising orthopaedics. We offer a unique combination of clinically-proven hip and knee solutions as well as world-leading technologies that enable patients, surgeons and healthcare providers to connect more closely than ever. The deep insight we gain, understand and share at every stage of the connected orthopaedic experience leads to advanced, patient-specific solutions that exceed expectations, maximise value in healthcare and positively impact lives. Our vision of connected orthopaedic insight is creating a new avenue to improve surgical and patient outcomes, transforming the orthopaedics industry.	
<u>Daiichi Sankyo</u> Ron Staggs, Senior Oncology Territory Manager rstaggs@dsi.com 615-210-6574	Daiichi Sankyo, Inc., the U.S. subsidiary of Daiichi Sankyo Co., Ltd., is headquartered in Basking Ridge, New Jersey, and is focused on the development of oncology and specialty medicines. Daiichi Sankyo, Inc. medicines approved in the U.S. include therapies for metastatic breast cancer, gastric cancer, tenosynovial giant cell tumor, hypertension, dyslipidemia, diabetes, thrombosis, stroke risk reduction, acute coronary syndrome, and IV iron therapy.	
<u>EMG Solutions</u>	EMG Solutions consists of a group of Board Certified Electrodiagnostic professionals dedicated to providing on-site testing to your practice.	
<u>Endo Pharmaceuticals</u> (484)216-0000	Endo Pharmaceuticals Inc., headquartered in Malvern, PA, develops and markets high-value, quality branded pharmaceutical products. Endo Pharmaceuticals' specialty portfolio includes products for urology, men's health, orthopedics and endocrinology. EndoPharmaceuticals is an Endo company. Learn more at www.endopharma.com .	
<u>Ferring Pharmaceuticals</u> Jim Hatfield Key Account Specialist, Orthopaedics (404) 932-7029	Ferring Pharmaceuticals provides biopharmaceutical research, development, and marketing of products. The Company offers products in the fields of reproductive health, urology, gastroenterology, endocrinology, and osteoarthritis. Ferring Pharmaceuticals operates worldwide.

2021 SPONSORS, continued

Northside Hospital Cancer Institute

Our elite team of experts are conveniently located throughout Georgia and care for patients with ANY type of cancer. As one of the nation's largest cancer programs, we offer our cancer patients great strength in numbers: ranking in the top five in the nation for newly diagnosed and/or treated cancer cases, we are number one in Georgia for cancer surgeries, and we are the nation's leading community cancer provider for several types of cancer. As the statewide leader of the National Cancer Institute Oncology Research Program (NCORP), our patients also have access to groundbreaking clinical trials throughout Georgia.

**Pacira Biosciences**

Pacira BioSciences, Inc. (Nasdaq: PCRX) is the industry leader in its commitment to non-opioid pain management and regenerative health solutions to improve patients' journeys along the neural pain pathway. The company's long-acting local analgesic, EXPAREL® (bupivacaine liposome injectable suspension) was commercially launched in the United States in April 2012. EXPAREL utilizes DepoFoam®, a unique and proprietary product delivery technology that encapsulates drugs without altering their molecular structure, and releases them over a desired period of time. In April 2019, Pacira acquired the iovera® system, a handheld cryoanalgesia device used to deliver precise, controlled doses of cold temperature only to targeted nerves. To learn more about Pacira, including the corporate mission to reduce overreliance on opioids, visit www.pacira.com.

**Paragon 28**

Phil Falcon
pfalcon@paragon28.com

Paragon 28® was established in 2010 to address unmet and underserved needs of the foot and ankle community. We are dedicated to creating tailored solutions and tools to improve the treatment of even the most difficult foot and ankle conditions. Paragon 28® operates under the following principles: inclusion and respect of individual surgeon's preferences, creative innovation, high-quality, cost-effective implants, and a strong belief that through research and innovation, we can create new and improved solutions to the challenges faced by foot and ankle specialists.

Foot and ankle surgeons are our primary focus at Paragon 28®. We listen to your ideas, your criticisms, and what needs to be better. We seek to understand your hesitance and frustrations with certain procedures and focus on how we can make things easier. The name "Paragon 28" was chosen by design — to never lose focus on our goal to advance the science of foot and ankle surgery.

Shoulder Innovations, Inc.

Shoulder Innovations, Inc is a medical device development company which designs and commercializes innovative products which demonstrate the potential for improved patient care and reduced overall cost to the healthcare system. Leveraging its breakthrough, patented, inset glenoid design, Shoulder Innovations is commercializing a shoulder replacement implant system focused on improving outcomes related to the greatest cause of shoulder replacement failure: glenoid loosening. The InSet™ technology has been shown in testing to significantly reduce glenoid implant micro-motion and simplifies surgical the surgical technique, potentially reducing complications or increase implant longevity.

**SI-BONE**

Carol Muelle
cmuelle@si-bone.com

SI-BONE is a global leader in technology for surgical treatment of musculoskeletal disorders of the sacropelvic anatomy.

**Smith+Nephew**

Smith+Nephew is a portfolio medical technology business that exists to restore people's bodies and their self-belief by using technology to take the limits off living. We call this purpose 'Life Unlimited'. Our 17,500+ employees deliver this mission every day, making a difference to patients' lives through the excellence of our product portfolio, and the invention and application of new technologies across our three global franchises of Orthopaedics, Advanced Wound Management and Sports Medicine & ENT.

2021 SPONSORS, continued
