## A Message From The GOS President

*Kelly Homlar, M.D.*

Dear Colleagues,

I hope this newsletter finds you well. At the grocery store this week I saw apple cider and pumpkin beer, college football is gearing up, and I can almost imagine a crispness in the air (though it is

92 degrees and humid outside right now in Augusta). The annual meeting is nearly upon us! I look forward to seeing many of you at The Cloister, October 6-9th. The annual meeting is truly the crowning joy for the society each year.

Your GOS Board members have been hard at work for you this year, volunteering their time and efforts on behalf of all orthopaedic surgeons in Georgia to ensure our patients receive outstanding musculoskeletal care. GOS representation is critical both in Atlanta and Washington, DC! Board members were down at the Capitol during the Georgia legislative session, they have been meeting with legislators throughout the year to foster ongoing cordial relationships and support orthopaedic-related legislation, and a delegation from GOS will be heading to Washington, DC September 10-14th for the National Orthopaedic Leadership Conference (NOLC). NOLC is a great opportunity to hear thought leaders across many different disciplines discuss the future of healthcare and how our orthopaedic specialty can best adapt and position ourselves for success.

It is also a time to learn AAOS's top advocacy goals for the year and personally communicate these with lawmakers.

Another exciting accomplishment is that the Georgia Orthopaedic Society Foundation has gotten off the ground and taken flight with some great projects such as creating a Health Policy Fellowship and providing grants to support resident research at the four Georgia orthopaedic surgery residency training programs. You will hear more about these and other projects in the coming months. Thank you to all who donated to the Foundation this past year. As a separate entity from the Society and a charitable organization, the GOS Foundation will be able to go over and above the reaches of the society to support tangible projects that further musculoskeletal care in Georgia.

Secretary-Treasurer and Program Chair, Brad Bushnell has put together an excellent program for the annual meeting. Our presidential guest speaker, Dr. Ginger Holt, will teach us about staying out of trouble with orthopaedic oncology patients as well as share some thoughts on educating the next generation of orthopaedic surgeons. We will also hear from GSSH Guest Speaker, Dr. Donald Lalonde and current AAOS President Dr. Felix H. "Buddy" Savoie III. The program includes a wide variety of interesting talks and topics, many of which are general topics applicable to all our practices. Thank you in advance to all our members who will be presenting. Active, engaged members keeps the society in good health! On that note, if you have an interest in

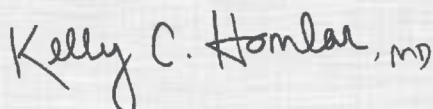

*Continued on Page 2*

getting more involved, please reach out to some of our board members. We need to continue to tap into the unique skills and talents of our members.

As always, we want to hear from our members. If you have thoughts on the direction of the society or how we can add value to GOS membership, please speak up!

And, of course, in addition to impeccable accommodations and CMEs, the meeting isn't complete without a whole lot of

fun and fellowship. Golf, tennis, lounging by the pool, walk/run on the beach at sunrise, cocktails overlooking the marsh, and an oceanside dinner dance with a lively band. It's the perfect unofficial close to the summer. Come join us!

**Kelly Homlar, MD FAOA**

Our mission is to provide the best outpatient physical therapy, occupational therapy and speech therapy. We want our patients to enjoy therapy and experience clear improvements in their health. Our clinics receive the highest levels of patient satisfaction and our patients receive the best objectively measurable outcomes.	
<a href="#"><u>Treace Medical Concepts, Inc.</u></a>	Treace Medical Concepts is focused on improving hallux valgus clinical outcomes via the #1 bunion correction product in the US - Lapiplasty® 3-Plane Correction at the CORA. With over 40,000 procedures and 16 peer-reviewed publications, the patented Lapiplasty® System is the evidence-based solution for delivering instrumented reproducibility, rapid return to weight-bearing, and low recurrence.	
<a href="#"><u>Triumph Orthopedics</u></a>	The first choice for orthopedists who are relentless in pursuit of excellence and team-based victory. Triumph brings strategic resources to you. Together we will elevate your practice through an empowering partnership. We will bring the resources to realize the growth vision you have for your practice. At the same time, we will support you with world-class functional teams to ensure that your practice is ready to handle the scale and growth.	
<a href="#"><u>Truist Wealth Medical Specialty Group</u></a>	For more than a century, we've collaborated with physicians and their practices to bring their visions to life. From banking to brokerage to trust, we offer streamlined wealth management through customized planning, sophisticated financial solutions, and attentive service.  We fully grasp the financial implications and continual changes in the healthcare industry—and the ongoing demands on your time. And we're equipped to partner with you to help both you and your practice group thrive.	
<a href="#"><u>Vericel</u></a>	Vericel develops, manufactures, and markets autologous cell-based therapies for patients with serious diseases and conditions. The company markets MACI® (autologous cultured chondrocytes on porcine collagen membrane), a third generation autologous cellularized scaffold product that is indicated for the repair of single or multiple symptomatic, full-thickness cartilage defects of the adult knee, with or without bone involvement.

The advertisement for the ModMed 2022 Patient Experience Report features a dark grey report cover on the left. The cover has the ModMed logo at the top, followed by a grid of white icons representing various medical and patient experience concepts. The title '2022 PATIENT EXPERIENCE REPORT' is prominently displayed in white, with the subtitle 'What Patients Really Think' and the tagline 'It's about time to find out' at the bottom. On the right side, the ModMed logo is repeated, followed by the headline 'WHAT DO PATIENTS REALLY THINK?' in large, bold, black letters. Below this is the text 'It's about time to find out' and a black button with the white text 'GET REPORT'. The background of the right side is white with faint, light blue geometric patterns.
